

SPA 4 HOMELESS ACCESS CENTERS

The access centers will assess clients' needs and take a step-by-step approach to help clients obtain the resources they are looking for. Wait time for services may be prolonged due to high demand. Some follow-up visits may be needed based on the client's requested services; if the client has documentation such as an ID, SS card, and proof of income, bring it; if the client does not, the access center can help guide the client on how to obtain documentation.

For inquiries or follow-ups, it can be done by phone. Please note that some access centers have a heavy call volume. They may have a general email or provide clients with email contact information when they visit. An in-person visit may be needed for follow-up. If requested, some access centers will provide intake appointment times. To bridge the connection between the clients and the access center staff, the client should provide contact and location information updates to the appropriate staff.
